PROFESSIONAL SUMMARY

Results-driven Project Management professional with PMP certification and 5+ years of experience leading large-scale initiatives across CPG and energy sectors. Proven expertise in supply chain optimization, digital transformation, and technical operations from planning to execution. Skilled in managing multi-million-dollar portfolios, submitting and tracking capital budget requests, and executing concurrent projects from initiation to close-out. Strong in Agile and stakeholder management to deliver on time, within scope while managing risk and ensuring financial compliance. Passionate about tech innovation and AI-enabled solutions across global markets.

EDUCATION & CERTIFICATION

Bachelor's degree in chemical engineering | Energy & Environmental Systems and Processes Specialization

University of Waterloo • GPA: 3.8/4.0 • Apr 2023

PMP Certified

July 2025 – July 2031

PROFESSIONAL EXPERIENCE

Customer Supply Chain Manager | Procter & Gamble (Hybrid)

July 2023 – Present

- Spearheaded enterprise wide “Never Be Out” initiative across 800+ stores and ~100 SKUs, delivering \$3M+ incremental sales, shaping executive decisions on \$200M portfolio strategy through disciplined planning and execution.
- Submitted and managed project budget requests for senior director approval, tracked spend forecasts, and ensured adherence to fiscal controls across multiple concurrent initiatives leveraging Microsoft project.
- Directed a cross-functional project team of 13 to deliver a national launch with 99% execution success through structured governance and stakeholder reporting.
- Led end-to-end product transformation for 80% of the Fabric & Home Care retail portfolio, driving a 28% sales increase through data-driven analysis skills and strategic planning.
- Delivered 98.5% on-shelf availability and minimized excess by aligning forecasting and transitions with global NPI timelines.
- Partnered with sales, ops, and marketing teams to integrate customer feedback, boosting household penetration of Swiffer by 140%.

Project Manager | Procter & Gamble, Toronto, ON (Hybrid)

May 2022 – Aug 2022

- Managed end-to-end project delivery of national product initiatives, driving 100% on-time completion and 23% KPI improvement through agile milestone tracking and risk control.
- Created national inbound shipment visibility dashboard for executive leadership supporting \$500M in annual logistical savings.
- Coordinated vendor invoices, spend forecasts and change requests to maintain project budgets and compliance.

Project Engineering Manager | Suncor Energy Inc., Calgary, AB (Hybrid)

May 2021 – Apr 2022

- Managed technical improvement projects for upstream facilities; extracted and analyzed 10 years of gas-production data to prevent \$1M in regulatory fines.
- Conducted root cause investigations and capital-budget reviews on high-risk wells, achieving a 20% improvement in overall well efficiency and 12% reduction in carbon emissions—illustrating a customer-first and environmentally sustainable approach.
- Delivered monthly performance reports and financial dashboards to senior leaders to support CAPEX allocation and resource planning.

Ignite HMI Product Owner | Owens Corning Canada, Toronto, ON

Sept 2020 – Dec. 2020

- Improved the HMI system efficiency by eliminating 9,000 nuisance alarms (90% reduction) through software logic enhancements.
- Led facility-wide rollout planning, coordinating contractors and internal stakeholders for a seamless transition.
- Mapped and executed product timelines in Jira, ensuring stakeholder visibility and risk mitigation throughout the rollout.

Technical Program Manager | Peavey Industries – TSC Stores LP., London, ON

Jan 2020 – Apr 2020

- Designed a twin set-up for a \$500K put-to-light (PTL) expansion project using AutoCAD with adherence to a strict budget, redefining product flow and reducing labor efforts by 40 hrs/week to deliver an ROI-driven cost saving of \$80K per year.
- Oversaw full program lifecycle for \$500K logistics tech rollout using Agile; facilitated daily standups with vendors and executive stakeholders to meet critical path deliverables under tight timelines ensuring schedule and quality compliance.

SKILLS

Agile • Communication • Leadership • Negotiation • Process Optimization • Stakeholder Engagement • Change Management

Technical Skills: Jira • Confluence • Power BI • Advanced Excel • AutoCAD • SAP • Microsoft Project • SolidWorks

EXTRACURRICULAR & PROJECTS

Product & Project Manager | Touchless Door Opener, Waterloo, ON

Sept 2021 – Apr 2023

- Led the Development of a mechanical regenerative door opener with RFID and Arduino-based touchless tech, managing the E2E product lifecycle from ideation to fabrication using Autodesk 3D and leveraging Scrum and Jira for real world testing and validation.
